Education

M.S. Department of Semiconductor Engineering *Expected Feb. 2027*

Seoul National University of Science & Technology, Seoul, Republic of Korea

- GPA: 4.5 / 4.5

B.S. Department of Electrical & Information Engineering *Mar. 2019 – Feb. 2025*

Seoul National University of Science & Technology, Seoul, Republic of Korea

- GPA: 4.24 / 4.5 (Major: 4.4 / 4.5)
- Academic Excellence Scholarship (5 Consecutive Semesters), 2022 – 2024

Internship, University of Nevada, *June 2023*

Las Vegas, US

- Exchange Student Program (one month)

Research

M.S. Research *Aug 2024 – Feb 2027*

Electronic Systems Laboratory, Seoul National University of Science & Technology

- *Advisor: Prof. Sarah Eunkyung Kim, Prof. Seulki Hong*
- Title of Thesis: Ar/CH_4 Reductive Plasma for Low-Temperature Hybrid Bonding
- Key Activities: DOE for Surface Optimization, a-C:H Kinetics Analysis, Post-Bonding Reliability

Capstone Design (Undergraduate Research) *Feb 2024 – Feb 2025*

Department of Electrical & Electronic Engineering, Seoul National University of Science & Technology

- *Advisor: Prof. Wonbo Shim*
- Title: Low Power High Integration 4T-SRAM Design
- Key Activities: MPW, Breadboard, TCAD

Tool Ownership and Training

S-fab (SeoulTech's cleanroom) Equipment Ownership *Mar. 2025 – Jan. 2027*

- Maintenance and Self-use training
- ICP CVD (Oxford, PlasmaPro 100), Aligner (EVG 610), Wafer Bonder (EVG 501), Shear Tester (MFM 1200 DGFT)

S-fab Process Training Assistant *Jan. – Feb. 2026*

- System Maintenance
- Equipment Troubleshooting
- SOP Standardization
- Facility Installation

Patents

Low-Temperature Hybrid Bonding Method and Hybrid Bonding Assembly Accordingly (US Patent Application Number, 19/365,396) Oct 2025

Skills Summary

Software/Tools: Origin, XPSPEAK4.1, JMP, Python, C, C++, Framer

Fabrication (Self-User): Sputter (SRN-100), ICP CVD (PlasmaPro 100), Aligner (EVG 610), Vacuum Oven, RIE etcher (PlasmaPro 80 Cobra65), Ion Milling (IM4000plus CTC), Mechanical Dicing (DISCO DAD3350), Stealth Dicing (DISCO DFL7341 SD), Die bonder (SET), Wafer Bonder (EVG 501), Probe Station, 3D profiler (Dektak 150), Nanospec-3000, Hall effect measurement (HMS-3000), MFM 1200 DGFT (Shear Test), Hitachi fineSAT (SAM).

Languages: Korean (Native), English (iBT TOEFL : 5.5 (110))
